Usage Guidelines

- ClassicVue 1550 and ImageVue 1540 are recommended for vehicle window graphics, building wraps and other large-format graphics.
- CLEAR FOCUS window films with a 60/50, 65/35 and 67/33 perf pattern are recommended for point-of-purchase, retail and commercial windows graphics as they offer optimum image resolution and detail.
- BudgetVue 1520 is not recommended for use on vehicle windows because of reduced visibility.
- BudgetVue 1533 is ABG certified for the German market.
- Check your local, city, state and national regulations for compliance with building signage ordinances.
- For more information about our products, visit www.clearfocus-europe.com
- Other products available including: laminations and non-perforated films.
